PROFESSIONAL SUMMARY

Enthusiastic Master of Computer Applications (MCA) graduate with knowledge in software development, database management, and web technologies. Experienced in building academic projects and solving real-world problems through programming and logical thinking. A quick learner with strong teamwork and communication skills, seeking an opportunity to contribute to innovative software development while enhancing technical expertise.

TECHNICAL SKILLS

- Java: Core Java, J2EE, OOP, Collections, Exception Handling, Collections, JDBC
 - Backend: Spring Boot, Spring MVC, REST APIs, Spring Data JPA, Hibernate
 - Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwind CSS
 - Database: MySQL, SQL
 - API & Security: REST APIs, Axios, JWT Authentication, Postman
 - Tools: Git, GitHub, VS Code, Maven
 - Deployment: Vercel, Render
 - Methodologies: Agile, Scrum, CI/CD
-

PROJECTS

Movie Ratings Viewer

Technologies: React.js, JavaScript, HTML, CSS, JSON Server

- Developed a web-based Movie Ratings Viewer application using **React.js** to manage movie information.
- Implemented **CRUD operations** for adding, viewing, updating, and deleting movie records.
- Integrated **JSON Server** as a mock REST API for backend data management.
- Used **Axios** for API communication between the React frontend and JSON Server.
- Designed a responsive and user-friendly interface to display movie details including **name, release year, genre, and ratings**.

Food Items Viewer

Technologies: React.js, JavaScript, HTML, CSS, JSON Server

- Developed a web-based **Food Items Viewer** application using React.js to manage food item information.
- Implemented **CRUD operations** for adding, viewing, updating, and deleting food item records.
- Integrated **JSON Server** as a mock REST API for storing and managing food item data.
- Used **Axios** to communicate between the React frontend and REST APIs.
- Designed a responsive and user-friendly interface to display and manage food details.

Public Grievance & Complaint Management Portal

Technologies: Java, Spring Boot, React.js, Java Script, HTML, CSS, MySQL

- Designed and developed a web-based portal for citizens to register and submit public complaints online.
 - Implemented user authentication and complaint submission features with image and location details.
 - Developed a multi-level escalation system where complaints are forwarded to authorities such as Councillor, MLA, Chief Officer, and IAS.
 - Integrated a complaint status tracking system to allow citizens to monitor progress and updates.
 - Managed database operations for storing user information, complaints, and resolution details securely.
-

EDUCATION

Master Of Computer Application| 2024 – 2026

Hindustan College of Engineering And Technology , Coimbatore | CGPA: 8.56/10

Bachelor Of Information Technology| 2021 – 2024

Hindustan College of Arts And Science , Coimbatore | CGPA: 7.07/10

HSC | 2020 – 2021

Swamy Vivekananda Matriculation Higher Secondary School , Tiruppur | 80.4

SSLC | 2018 - 2019

Model Higher Secondary School, Tiruppur | 65.45

CERTIFICATIONS

- **Full Stack Development — Accord Info Matrix**

Technologies: Java, Spring Boot ,Python, React.js, MySQL, SQL, REST APIs, Authentication, Debugging, Deployment

- **Ai Tools — Accord Info Matrix**

Technologies: Tools: Git, Jupyter Notebook, VS Code, Chatgpt(Prompt Engineering) ,Midjourney(Image generation),Writesonic(Content Creation),Framer(Website Creation),GithubCopilot(CodingAssists).
