

SANGEETH

Full Stack Developer (Java | Spring Boot | React.js) — Entry Level

Coimbatore, Tamil Nadu, India | Phone: 7538823783 | Email: sangeethmca67@gmail.com

LinkedIn: [linkedin.com/in/sangeeth67](https://www.linkedin.com/in/sangeeth67) | GitHub: github.com/sangeethwills | Portfolio: myportfolio-sigma-three-41.vercel.app

PROFESSIONAL SUMMARY

Full Stack Java Developer and Master of Computer Applications (MCA) graduate with hands-on software development experience building end-to-end web applications using Java, Spring Boot, React.js, REST APIs, and MySQL. Skilled in Data Structures and Algorithms, object-oriented programming, relational database design, and the full Software Development Life Cycle (SDLC) including requirements analysis, coding, unit testing, debugging, and deployment. Completed 4+ full stack projects independently, deployed on Vercel, Render, and Railway using Git-based version control and Agile/Scrum practices. Strong problem-solving skills, quick learner, and effective team collaborator seeking an Entry-Level Full Stack Developer / Software Engineer role to contribute to scalable, production-quality software solutions.

KEY SKILLS

Programming Languages: Java, JavaScript (ES6+), SQL, Python

Core Java & CS Fundamentals: Object-Oriented Programming (OOP), Data Structures & Algorithms, Collections Framework, Exception Handling, Multithreading Basics, JDBC, J2EE

Backend Development: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, RESTful API Design, Microservices Basics

Frontend Development: React.js, HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, Responsive Web Design

Database: MySQL, SQL Queries, Relational Database Design, Normalization

API, Testing & Security: REST APIs, Axios, JWT Authentication, Postman, Unit Testing, Debugging

Tools & Version Control: Git, GitHub, Maven, VS Code, Agile/Scrum, CI/CD

Deployment & Cloud: Vercel, Render, Railway

Soft Skills: Problem Solving, Team Collaboration, Communication, Time Management, Fast Learner

PROJECTS

Citizen Voice Escalate — Public Grievance & Complaint Management Portal

Technologies: Java, Spring Boot, React.js, JavaScript, HTML, CSS, MySQL

- Built a full stack public grievance portal using a Java Spring Boot REST API backend and a React.js frontend, enabling 100+ simulated citizen users to register and track complaints online in real time.
- Developed secure JWT-based user authentication and complaint submission workflows with image uploads, location tagging, and a 4-tier escalation system (Councillor, MLA, Chief Officer, IAS), reducing manual complaint routing steps.
- Designed a normalized MySQL relational schema across 5+ tables for users, complaints, and resolution records, and implemented real-time complaint status tracking; independently deployed backend and frontend on Railway, Render, and Vercel.

Food Items Viewer

Technologies: React.js, JavaScript, HTML, CSS, JSON Server, Axios

- Developed a React.js CRUD application enabling create, read, update, and delete operations for 50+ food item records with instant UI updates.
- Integrated JSON Server as a mock REST API and used Axios for asynchronous frontend-backend communication, cutting manual data-entry time.
- Built a responsive, mobile-friendly UI and deployed frontend and backend independently on Vercel and Render.

Movie Ratings Viewer

Technologies: React.js, JavaScript, HTML, CSS, JSON Server, Axios

- Built a React.js application to manage movie data (name, release year, genre, ratings) with full CRUD functionality across a growing dataset.
- Integrated JSON Server as a mock REST API and Axios for API communication, enabling seamless filtering and browsing of movie records.
- Designed a responsive interface improving usability for browsing, filtering, and updating records.

Bus Reservation System

Technologies: Java, HTML, CSS, JavaScript, JSON

- Developed a Java-based bus reservation system supporting bus search, real-time seat availability checks, and booking management for multiple routes.
- Implemented JSON-based data storage for reservation records, ensuring accurate and consistent booking data.
- Built a responsive front-end interface using HTML, CSS, and JavaScript, delivering a seamless end-to-end booking flow.

EDUCATION

Master of Computer Applications (MCA) | 2024 – 2026

Hindustan College of Engineering and Technology, Coimbatore

CGPA: 8.56/10

Bachelor of Information Technology (B.Sc. IT) | 2021 – 2024

Hindustan College of Arts and Science, Coimbatore

CGPA: 7.07/10

HSC (Higher Secondary Certificate) | 2020 – 2021

Swamy Vivekananda Matriculation HSS, Tiruppur

Percentage: 80.4%

SSLC (Secondary School Leaving Certificate) | 2018 – 2019

Model Higher Secondary School, Tiruppur

Percentage: 65.45%

CERTIFICATIONS

- Full Stack Development — Accord Info Matrix (Java, Spring Boot, Python, React.js, MySQL, REST APIs, Authentication, Deployment)
- Python Programming — Accord Info Matrix (Python programming concepts and application development)
- AI Tools for Development — Accord Info Matrix (Git, VS Code, Prompt Engineering, GitHub Copilot)
